HI-TECH EQUIPMENT AND SERVICES

Hi-Tech equipment's and Services objective is to provide high-quality material handling equipment services and consultancy for all the industry segments relieving them of the burden to maintain and repair the equipment.

OUR MISSION

- ▶ **Hi-Tech equipment's and Services objective is to provide high-quality material handling equipment services and consultancy for all the industry segments relieving them of the burden to maintain and repair the equipment.**

Our VISION

- ▶ Our vision is to be the market leader and one-stop solution for all MHE requirements offering best-in-class service to customers and maximum value addition to our Customer.

Material Handling Equipment Services

Hi-tech equipment's and services. Is the leader in the role of market to supply of technical support and has specialization for service in material handling industry. Our quality commitment and regular supply of timely service and support has made us the customers' first choice. Setting standards of technical excellence scaling new heights in its determination to deliver the best.

Benefits to Renting a Lift Truck Versus Buying a Lift Truck

Flexibility

If your business is experiencing volatility, high growth or rapid change, the cost of purchasing a Lift Truck might be much greater than choosing rental option.

Tax Advantages

A Lift Truck rental might be considered an operational expense versus a capital expense. Using the expense to reduce taxable income can be simpler than depreciating a purchased asset. Leasing is a tax-deductible operational expense.

Budgeted Maintenance

Every machine needs maintenance and repair. Renting a Lift Truck on a full service program removes the risk of costly and unexpected maintenance repairs since it is in our scope.

Rentals

▶ Forklifts CAPACITY - 1.5 - 12 TON

▶ Reach Truck CAPACITY - 1.4 - 2.5TON

REACH TRUCK

Our Products Rentals

**VNA - VERY NARROW AISLE
REACH TRUCK**

Articulated Forklift

CAPACITY - 1.4 - 2.0 TON

BOPT/ PALLET TRUCK

CAPACITY - 2.0 TON

Benefits Of Equipment Rental:-

- No capital investment needed.
- No need to recruit operators.
- No need to recruit maintenance staff.
- Fixed monthly cost / easy budgeting.
- Lesser requirement of management efforts on forklifts.
- Get more time to concentrate on your core business.
- Lesser forklift breakdowns.
- Finally higher productivity.

Annual Maintenance Contracts (AMC) Services

Hi-tech equipments and services is a leading provider of annual maintenance contracts (AMC) services for material handling equipment. We are dedicated to ensuring that our clients' businesses run smoothly and efficiently by providing comprehensive maintenance services for their material handling equipment. Our AMC services are designed to provide preventive maintenance, repair, overhaul, and emergency repairs for material handling equipment. We offer regular inspections to identify any potential issues before they become costly problems. This proactive approach ensures that your equipment continues to operate smoothly and reliably, minimizing downtime and maximizing productivity.

Why choose HI-TECH EQUIPMENTS AND SERVICES for your AMC services

Experienced and skilled technicians our team of highly experienced and skilled technicians are trained to handle all types of material handling equipment, from forklifts to cranes. They are equipped with the latest tools and technologies to provide high-quality maintenance services. Customized solutions: we understand that every business has unique needs and requirements. That's why we offer customized AMC solutions tailored to meet the specific needs of our clients. Cost-effective: our AMC services are designed to be cost-effective, providing long-term savings for our clients. By regularly maintaining your equipment, you can avoid costly repairs and replacements in the future. Reliable and efficient: we pride ourselves on providing reliable and efficient AMC services. Our team is dedicated to ensuring that your equipment is always in top condition, minimizing downtime and maximizing productivity. Timely maintenance: we understand the importance of timely maintenance for material handling equipment. That's why we provide regular inspections and maintenance services to ensure that your equipment is always operating at its best

Other important Information you Should Know about our AMC Services

We offer flexible AMC contracts, including monthly, quarterly, and yearly contracts, to meet the needs of our clients. • Our AMC services cover a wide range of material handling equipment, including forklifts, cranes, pallet trucks, and more. • Our team is available 24/7 to provide emergency repairs, minimizing downtime and ensuring that your business stays up and running.

SERVICE

PREVENTIVE MAINTENANCE

We do routine preventive maintenance tests to reduce downtime of your material handling equipment

INCIDENCE BASED REPAIRS

Call us in event of a breakdown - our engineers will attend to you immediately.

ANNUAL MAINTENANCE PLANS

Subscribe to our annual maintenance plans for optimum health and fitness of your expensive equipment

ENGINE OVERHAULING

We have in-house facilities for engine overhauling and repair

ELECTRONICS REPAIR

We have sophisticated digital electronics laboratory for repair of Wiring Harnes, Self Sarter, Dynamo, Altinator, Motor.

TYRE CHANGE

We have facilities for Tyre change in your equipment using latest machines

HYDRAULICS REPAIR

We repair any type of hydraulic systems in material handling equipments.

EQUIPMENT PAINTING

We have in-house facilities for painting and re-furbishing equipments.

TYRES

Solid tyres

- Filled with rubber
- Suitable for carrying standard loads where puncture-prone materials are present
- Used for manufacturing facilities, warehouses, and distribution centres
- Less shock absorption
- Minimal maintenance, puncture-proof

Pneumatic tyres

- Filled with compressed air
- Suitable for carrying heavy loads on an uneven surface
- Used in ports, container handling
- Excellent shock absorption
- Requires air maintenance, prone to puncture

SPARE PARTS

- Our company maintains an active inventory of thousands of common as well as rare-to-find spare parts of material handling equipments. With an extended network of spare part suppliers across the globe, we cover pretty-much 100% gamut of spare parts for forklift trucks or any other material handling equipment used in industry. Our in-depth knowledge of parts, retrofitting and substitutes can help you lower equipment down-time and lower cost of maintenance of expensive equipment. Try us today - give your requirements to us for an immediate quotation.

Multi-city operations include Remote Locations

Our PM Service is factory-recommended every 250 hours for optimal performance

Preventative Maintenance (PM) program is recommended every 250 hours, but is scheduled to your specific production needs as determined by an evaluation of your operations, taking into account:

- ✓ Current maintenance practices
- ✓ Actual hours forklift is run
- ✓ How equipment is used in your application

After a thorough 100+ point inspection of your forklift, we design a maintenance schedule that will keep your forklift in optimal running condition, resulting in longer equipment life, less downtime and greater trade-in value on your next forklift purchase.

Contact us today to customize your plan and get all the details on a forklift Preventative Maintenance program for your operation.

HI-TECH EQUIPMENTS AND SERVICES

TRUSTED SERVICE PROVIDER

- □ Our thorough 100+ point inspection is critical to keeping your forklift running as optimally as possible. This results in longer equipment life, less downtime, and excellent trade-in value for your next forklift. We offer custom-designed forklift preventative maintenance plans and programs for your operation. Whether you need quarterly or annual inspections and repairs, we have the solutions to ensure your forklifts remain operating. Our maintenance plans follow OSHA recommendations and requirements to help avoid forklift citations while reducing potential injury and expensive repairs. Contact us to schedule and create your forklift maintenance plan today.
